

Billings Township Needs You!

The municipality is engaging with ReThink Green, a Northern Ontario 'green solutions' company, and several other area municipalities, in a process designed to address municipal energy planning. Participation in the initiative will prepare the township to apply for appropriate funding and facilitate the creation of a provincially mandated municipal energy plan.

We need a community member to serve on a Leadership Team (committee) which will oversee the township's participation in this initiative.

The role requires attendance at a minimum of 3 meetings between mid-November and March, 2018.

If you have an interest in helping the township plan for the future, effectively manage and reduce our energy usage, and generally reduce our environmental impact, please contact the municipality:
