Emergency Management Safety Tips: Summer Weather

As we are entering into the summer season, it brings along its active weather situations that we need to be conscious of and plan for. While we are all looking forward to being outdoors and enjoying time with family and friends, we need to be aware of the hazards that we face from sun and heat exposure and hazards that could arise when thunderstorms, forest fires and high wind events occur. These types of weather events can arise quickly and be quite dangerous; you should do your best to be prepared and have safety plans in place.
