

Please be advised that Fisheries Oceans Canada (DFO) is doing Soil Remediation Work at the Kagawong Lighthouse to remove all metal impacted soil that are believed to have been caused by past DFO operational practices (lead paint) and is part of the final stages of environmental remediation works at the lighthouse site initiated by DFO several years ago.

Lane reductions may occur on Main St. in the vicinity of the lighthouse and the Aus Hunt Marina. The vegetation clearing, excavation and backfilling work is scheduled to be finished by the end of next week. The re-establishment of grass and vegetation will be completed in the Spring (weather dependant).

Thank you for your patience and understanding. For more information, please contact Emily Dance, CAO/Clerk the Township Office (705) 282-2611 or edance@billingstwp.ca
